

B2G Kiosk: Adding Hot Items in ConnectHQ

The B2G Kiosk allows Hot Items to be placed on the checkout screen, allowing for the purchase and inventory of items that cannot be otherwise scanned.

To Add a Hot Item to a Kiosk:

- Hot items are added at the **Point Of Sale** level in ConnectHQ (Main menu > Customer > Points Of Sale > *Point Of Sale* > Hot Items tab).
- Click the **Add Product** button to enter the number of buttons to add (more can be added or removed after the fact). Up to **16** hot items can be added to a kiosk, and each hot item has a 50 character limit.
- Click in the item box to set a product as a hot item.
- Click **Save**.
