

LYNK Telemeter – Service Quick Reference Guide

Use the LYNK Telemeter’s **Service Menu** and **Quick DEX** features to simplify servicing a device.

Quick Service DEX:

Tap the highlighted areas of the LYNK screen shown below to perform a Quick Service DEX.

LYNK Quick DEX: Full Size and Overlay

Quick Dex Areas: Full Size Model (right), Overlay Model (left)

Service Menu:

To open the Service Menu, **tap the primary language button 5 times** then enter your Operator PIN. The Service menu provides access to device commands and tests like *Reboot* and *Send a Service DEX*. For an overview of the Service Menu and all its options, check the Service Menu Guide [here](#).
